FUEL STICK IS IDEAL FOR ALL:

- ◆ Gasoline & Diesel Engines
- ◆ 2 and 4 Stroke Engines
- ◆ Cars of All Types
- ◆ Trucks of All Sizes
- ◆ Motorcycles and Dirt Bikes
- ◆ Pleasure Craft of All Sizes
- ◆ Commercial Boats & Ships
- ◆ Construction Equipment
- ◆ Heating & Cooking Fuel
- ◆ Kerosene Appliances
- ◆ Large & Small Generator Sets

Fuel Stick is available in three sizes:

FS 300 PACK—TREATS 300 LITRES
FS 600 PACK—TREATS 600 LITRES

FS 12000 FLEET PACK FOR HIGH VOLUME
TREATS 12000 LITRES

- FUEL STICK IS -
- SAFE TO HANDLE
 - SAFE TO STORE
 - SAFE TO TRANSPORT
 - ECONOMICAL
 - EASY TO USE

**STOP
WASTING
FUEL**

**REDUCE
YOUR
CARBON
FOOTPRINT**

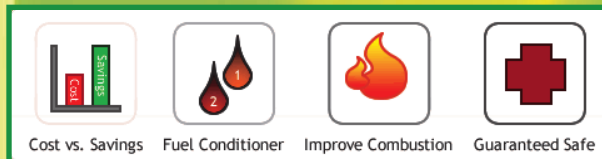

- ◆ Save up to 20% on fuel costs
- ◆ Reduce emissions up to 80%
- ◆ Increase horsepower & torque
- ◆ Burn fuel more efficiently
- ◆ Extended engine and oil life
- ◆ 100% Safe for all engines
- ◆ 100% Active ingredients
- ◆ 100% Bio-Degradable
- ◆ 100% Non-toxic
- ◆ 100% Guaranteed

Fuel Stick Works Every Time!

WHAT IS FUEL STICK?

Fuel Stick is a complex blend of highly refined renewable organic chemicals based on palm extracts, designed specifically to blend with gasoline, diesel, bio-fuel and 2 stroke mix. Fuel Stick is a 2 in 1 fuel conditioner that will improve fuel combustion, increase power and performance, clean, lubricate and protect the fuel system, and reduce harmful emissions, saving you money, using less fuel, and reducing your carbon footprint.

FUEL STICK IS GREAT FOR:

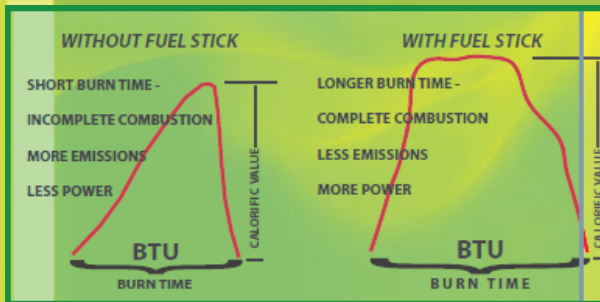

- ◆ CARS, TRUCKS & MOTORCYCLES
- ◆ TAXIS, LIMOS AND COURIERS
- ◆ EMERGENCY SERVICES
- ◆ SCHOOL BUSES
- ◆ MOTORHOMES
- ◆ CONSTRUCTION
- ◆ DISPOSAL COMPANIES
- ◆ TOWING COMPANIES
- ◆ BOATS OF ALL SIZES
- ◆ ATV'S AND SNOW MOBILES
- ◆ LANDSCAPING EQUIPMENT
- ◆ PERSONAL WATERCRAFT
- ◆ TRUCKING FLEETS
- ◆ LOGGING COMPANIES
- ◆ KERSONE HEATERS

HOW DOES FUEL STICK WORK?

Fuel consumption in an engine is a very complex instantaneous reaction and small changes in the fuel structure can influence the characteristics and performance of the fuel at the time of combustion. Altering the surface tension and molecule size of the fuel has significant effect on the way the fuel is atomized and eventually burnt in the combustion chamber.

One of the things Fuel Stick does is increase the viscosity of the fuel and the spray droplets. This produces a spray pattern of more uniform size droplets, and has the immediate effect of introducing a consistent fuel molecule to the engine at the time of ignition, thus producing a more consistent air fuel ratio and improved burn. This improved burn increases the BTU output of the fuel to increase power and convert harmful CO to CO₂ and reduce the HC and particulate content in the exhaust gasses.

There are antioxidants and other ingredients in Fuel Stick to safely provide a natural lubricant for the fuel and increase the burn rate, thus increasing the cetane and octane ratings of both diesel and gasoline as well as cleaning the combustion chambers and fuel system. This will extend the life of your fuel system, and increase the efficiency and use of the fuel. Overall, this has the effect of substantially reducing fuel consumption and emissions, while increasing power, responsiveness, and overall performance.

IS IT SAFE FOR MY ENGINE?

Fuel Stick is made from ingredients that are completely compatible with your fuel and the fuel system of your vehicle. These ingredients will not harm the seals, gaskets, fuel sensors, fuel injectors, fuel tank or catalytic converters on any gasoline or diesel vehicle, or any equipment or tools.

HOW OFTEN DO I USE FUEL STICK?

For best results, Fuel Stick should be used on a regular basis with each fill. This will keep your engine clean and give you all of the benefits of regular use.
